Subject: Program Test Authority --WBKX -- BLED-20050420AAA

By this e-mail, program test authority IS GRANTED to permit WBKX (FM) to operate at an effective radiated power of 1.40 kW ERP with the directional facilities authorized in construction permit BPH-20010105AAU, pending further action on license application BLH-20050402AAA.

This authority is being sent by e-mail in lieu of a letter in order to get this authority to you as soon as possible. Please print a copy of it and keep it with the station's records. The grant of this program test authority will also be noted in the FCC's CDBS database.

I must apologize for the delay in granting program test authority. This had been timely assigned to an engineer on the staff for review, but I don't think that engineer realized that the license was covering a directional FM facility.

If there are any questions, please contact me at 202-418-2706.
